
Land Sale or Rental Tools Now Available

Posted by Jim Allen - 2007/10/07 16:12

If you would like to sell your land, rent your land, or rent space (such as shop space in a mall) through a BidSL auction, we've put some tools together for you. At the entrance to the main BidSL auction house, you'll find a shelf of selling kits for different situations.

Just click on the appropriate box to take a free kit and you'll be given a scripted sign to place on your land or in your space. This sign announces that the land or space is available for sale or rent to the highest bidder, and gives the interested party a landmark to your auction and encourages them to place a bid.
